Moshtaq Alwtr

Full-Stack Developer — Laravel · Flutter · Node.js / Next.js

Riyadh, Saudi Arabia | +966 53 531 9612 | moshtaqkaid6@gmail.com | linkedin.com/in/moshtaq-kaid-825a9b330 | github.com/moshtaqAlwtr

PROFESSIONAL SUMMARY

Full-stack developer with 5 years of experience building web and mobile products end to end, from database design and REST APIs to admin dashboards and Flutter apps. Built and launched multi-tenant SaaS platforms, including an all-in-one ERP & POS system (**Orvix**), a multi-vendor e-commerce store (**Luran**) and a buyer–seller marketplace app (**Sa'i**), each with dedicated merchant and platform-admin dashboards. Hands-on with Saudi market requirements such as ZATCA e-invoicing and on-device card payments.

TECHNICAL SKILLS

Backend	PHP 8, Laravel 12 (modular architecture), Node.js, Express, RESTful APIs, JWT authentication, roles & permissions
Frontend	JavaScript, TypeScript, React, Next.js, Tailwind CSS, HTML5, CSS3, responsive & RTL interfaces
Mobile	Flutter, Dart, Riverpod, Firebase (Auth, Cloud Messaging), offline-first sync with SQLite
Databases	MySQL, PostgreSQL, Oracle, MS SQL Server — schema design, query optimization
Tools	Git, Docker, Vite, Linux server deployment, deployment scripts
Domains	ERP, POS, e-commerce, multi-tenant SaaS, accounting, ZATCA e-invoicing, payment integration (NearPay)

PROFESSIONAL EXPERIENCE

Front-End & Back-End Developer — Al-Wa'i Digital Foundation, Riyadh, KSA — 2024 – Present

- Develop integrated systems and web applications, including interactive interfaces that improve the user experience.
- Build back-end services and database layers for fast, stable performance.
- Delivered **Aqdi**, a contract-management platform for the Saudi market; a pharmacy dashboard for medicines, sales and stock; and a delivery dashboard (similar to Mrsool) for orders, couriers and customers.

Full-Stack Developer — Meta Code Software, Yemen — 2022 – 2024

- Designed and developed web and mobile applications using Laravel, Flutter and modern JavaScript frameworks.
- Built professional, responsive user interfaces and connected systems through REST APIs.
- Owned features end to end: requirements, database design, API development, UI, testing and deployment.

Office Sales Supervisor — Al-Tayeb Al-Afdal Foundation

- Managed sales routes and planned the field sales reps' daily coverage.
- Tracked sales reps in the field and followed up on their sales and performance.
- Coordinated between the sales team and management, and prepared sales reports.

KEY PROJECTS

FawtraSmart — Invoicing & Field Sales Management System

- Invoicing and ERP system covering sales, purchases, inventory, customers and accounting.
- Live tracking of sales reps and their movement on the map.
- Collections and commissions modules, plus human resources management.
- Detailed, accurate reports for sales, collections, rep performance and stock.

Orvix ERP — All-in-One ERP & Smart POS (SaaS)

Stack: Laravel 12, PHP 8.2, MySQL, Tailwind CSS, Flutter, NearPay SDK, ZATCA

- Cloud ERP for multiple companies with a built-in POS: sales, purchases, inventory, accounting, HR, customers, kitchen and delivery in one system.
- The Flutter cashier app takes card payments on the device itself, scans barcodes and prints receipts, so the merchant runs the business from **one device** instead of a separate cashier, card terminal and back-office PC.
- ZATCA-compliant e-invoices with QR codes, plus PDF and Excel reports.
- Three interfaces: POS app, **merchant dashboard** (branches, staff, stock, reports) and **admin dashboard** (companies, subscription plans, AI tools, two-factor login, system monitoring).

Luran — Multi-Vendor E-Commerce Store

- Online store connecting buyers and sellers, with product catalog, cart, checkout and order tracking.
- **Merchant dashboard** for products, stock, orders and sales reports.
- **Admin dashboard** for merchants, categories, orders, payments and platform settings.

Sa'i — Buyer–Seller Marketplace App

Stack: Flutter, Node.js / Express, MySQL, Next.js, React Query, Firebase

- Mobile app linking buyers and sellers: ordering, live updates, push notifications and Google sign-in.
- **Merchant dashboard** and **admin dashboard** (Next.js) with roles and permissions.
- Double-entry accounting, offline mode with local SQLite and automatic sync, PDF invoices.

Iron Factory — Steel Factory Management System

github.com/yoonus-k/Iron_Factory

Stack: Laravel 12, PHP 8.2, Laravel Modules, Sanctum API, Blade

- Manages the factory's warehouse, deliveries and production stages.
- Supplier invoice reconciliation and supplier reports, with duplicate prevention when receiving goods.
- Interface in four languages (Arabic, English, Urdu, Hindi) for a multinational workforce.
- Lead contributor in a team of three developers (140+ commits).

CRM — WhatsApp AI Commerce Platform (SaaS)

Stack: React 19, Vite, Tailwind CSS, Node.js / Express, MySQL (Knex), Socket.IO, React Query, Zustand

- Lets merchants sell and serve customers over WhatsApp: shared inbox with real-time chat, customers, products, orders and message templates.
- Marketing campaigns, a visual automation builder and an AI chatbot; WhatsApp catalog sync and Meta Ads integration.
- Payments via MyFatoorah, Stripe and PayPal, plus a merchant wallet, subscription plans and add-ons.
- **Merchant dashboard** and **admin dashboard**; 127-table database, ~100 REST endpoints, JWT with refresh tokens.

Hawiya — Training Courses & Consultations Platform

Stack: Laravel 12, PHP 8.2, MySQL, Laravel Modules, Tailwind CSS, JWT

- Online learning platform: courses, modules and lectures with interactive questions and progress tracking.
- Module and final exams from question banks, and certificates for trainees who pass.
- Consultation bookings, events, memberships, payments and complaint handling.
- Bilingual public website and an **admin dashboard** with roles and permissions.

Other Projects

- **HajjTrak** — Flutter Android app that helps pilgrims track their activities during Hajj.
- **School–Parent Portal** — Laravel.

EDUCATION

B.Sc. in Information Technology — International Malaysian University, Yemen 2018 – 2022

CERTIFICATIONS & COURSES

- DotX Pro System for Exchange Companies — Ebda'a Soft (2023)
- Fundamentals of Digital Marketing — Google (2023)
- Monitoring & Evaluation; Marketing Strategies — For Me Institute (2023)
- Diploma in Mobile Maintenance & Programming — Queen Arwa University (2019)
